CONDITIONS OF AGREEMENT

1. The authority to perform special work or services on a cost basis is contained in Title 31 U.S.C. 686 (47 Stat. 417), relating to services for Federal agencies, and in Title 13 U.S.C. 8 and Title 15 U.S.C. 189a (49 Stat. 292), relating to services for other organizations and persons. The performance of the work or services involved is authorized only to the extent that they are consistent with the proper performance of the basic public duties and obligations of the Bureau of the Census (hereinafter referred to as the Bureau) and the relative importance of this request to others. The right is reserved, therefore, to reject or terminate all or any part of the agreement and return the unused balance of funds advanced if the exigencies of the public interest should require such action.
2. Although every reasonable effort is made to avoid delays, failures and errors in the performance of its work, it is understood that the Bureau is not to be held responsible for delays, failures or errors in the services performed. The cost of re-compilations, corrections, or accelerations must be paid for by the requesting party.
3. Under certain conditions, the Bureau is permitted to fix in advance the final charge to be made for the work described. If such conditions prevail, the left box at the bottom of item 7 on the face of this form will be checked. In all other circumstances, the final charge for the work will be based on the actual costs incurred. In such circumstances, if advance payment is made and actual costs are less than the estimate, the difference will be refunded. Occasionally, in such circumstances the actual costs may exceed the estimate and it is understood that the requesting party will be billed for and will pay the total cost incurred, including the excess over the estimate.
4. The information is furnished subject to the limitations and qualifications, if any, transmitted with the information and the requesting party will respect such limitations in any public use of the information. The Bureau reserves the right to specify that the material is for use of the purchaser only and may not be published, or to require clearance of any proposed publication of the information. If all of the basic data involved were collected under Government supervision or received by the Government in the regular course of business, the right is reserved to publish the same information and make it generally available without charge or at cost of publication if the Bureau regards the information to be of general public interest. If not generally published, subsequent requests for the same information by other commercial groups or private individuals will be charged for at a cost not less than that paid by the first requesting party, or the total cost of all parties prorated in an equitable manner as determined by the Bureau. In all cases, the Bureau reserves the right to keep a copy of the information in its files, to use such information for its own purpose, and, in case of any dispute or question involving the use of the information, to make such use of it as will best serve the public interest.
5. Ordinarily, the information, files and records are retained for a period of five years from date of origin. It is understood, however, that the Bureau is not obligated in any way to retain such files and records for any specific period and may dispose of them at such times and in such manner as it may determine appropriate, subject to the regulations of the General Services Administration.
